

Career Camp

(NOTE TO PARENTS - This camp involves daily transportation off campus to various career sites. Either cars or buses will be used to shuttle campers depending upon the size of the group. Transportation services will be provided by Kingsbury.)

Kingsbury 's ' Career Camp ' is designed to provide campers aged 11-14 with a first-hand investigation of some of the hottest careers in town. In the morning, we will travel off-campus to visit two professionals on-site of their employment. Experts will discuss their careers in detail including necessary schooling, primary responsibilities, perks of the trade, and opportunities for advancement. After lunch, we will return to Kingsbury for afternoon activities related to the careers investigated in the morning.

Children may sign up for individual days of camp focusing on the careers of greatest interest to them, or for the full two-week session. In total, Kingsbury will offer two separate two-week sessions -- with each session offering unique sets of career choices to explore.
